

The Federal Communications Commission

Dear The Federal Communications Commission,

We urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

As Senior citizens we use our wireless phone only for safety and security, and we are concerned that this proposal could make our current service unaffordable.

We don't want to lose these benefits so that big businesses can pay less, and urge you to reject the proposal to move to a flat-fee system.

Thank you,

Sincerely,

Peter J. Kniskern
